ED be reduced to 8-10 analysts who review only the General Survey	a. No DDI objection, but idea not felt workable or useful because of controlled or narrow content of these studies; b. -c. -d. Non-concurred because production plan already underway that should achieve economies sought-premature to add other changes
12	Rotate CD compilers to broaden their area expertise and give Division increased flexibility	DDI responded that rotation already standing policy; new CD organization will facilitate it
13	Put all graphics people in ED and CD into a CD Graphics Support Branch; shift all cartographers to CD's Cartographic Research Branch	DDI felt new CD organization is consistent with intent of the recommendation; declined to make these specific changes
